 harshita22076@gmail.com | Mohali, Punjab

## PROFESSIONAL SUMMARY

A Computer Science & Engineering graduate with practical experience in web development using HTML, CSS, JavaScript, Node.js, and Express.js. Proficient in developing real-world applications with API integration and focused on enhancing user experience. Currently expanding expertise in MERN stack development and exploring advanced backend and modern frontend technologies.

## SKILLS

**Web Technologies:** HTML, CSS, JavaScript

**Framework:** Node.js, Express.js, MongoDB, Bootstrap, React

**Language :**Javascript

**Database :**MongoDb

**Tools & Others:** Git (Basic), Canva, GitHub, Postman

## RELEVANT EXPERIENCE

### Novem Controls – Internship Trainee

Jan 2025 – July 2025

Mohali, India

*Mern Stack Developer*

- Developed responsive web interfaces using HTML, CSS, and JavaScript (Flexbox, Grid).
- Designed and deployed a personal Portfolio Website showcasing major projects.
- Gained hands-on experience with Node.js, Express, and MongoDB for RESTful APIs and full-stack integration.

### Pg Tech Pvt. Ltd – Summer Intern

July 2023 – August 2023

- Developed a GitHub ID Finder web application using HTML, CSS, and JavaScript.
- Integrated the GitHub API to fetch and display real-time user information such as bio, repositories, and followers.
- Strengthened skills in API integration, data fetching and dynamic DOM manipulation.

## PROJECT

### Student Management System (MERN Stack)

- Developed a full-stack web application for institute management with admin login and secure access.
- Implemented a searchable dashboard to view student details in a card layout.
- Enabled CRUD operations: add, edit, update, and delete student data.
- Built with MERN stack, integrating frontend and backend for a dynamic, data-driven interface.

### NoteFlow Web App (React.js)

- Built a React-based CRUD application enabling users to create, read, update, and delete posts.
- Integrated backend APIs to store and manage user data efficiently.
- Designed responsive UI components ensuring smooth real-time updates and clean layout.

### Aadhaar & Email Authentication APIs

- Developed backend APIs for Aadhaar card verification and email authentication using Node.js and Express.js.
- Implemented validation, error handling, and secure API routes for user data protection.
- Strengthened backend integration skills and RESTful API development experience.

### Money Converter Web App

- Integrated a live currency exchange API to fetch and display real-time conversion rates.
- Built using HTML, CSS, and JavaScript (Fetch API) with a clean, responsive design.

## EDUCATION

### CT Group of Institutions||Shahpur, Jalandhar

July 2025

Bachelors of Computer Science & Engineering

8.01 SGPA

### B.N.D.Senior Secondary School

PSEB Board

12th (Senior Secondary Examination) : 91.4%
